 COMPLETE STEP-BY-STEP PREPARATION, COOKING, STORAGE & PORTION GUIDE

Follow this exact protocol on Monday (Batch Prep Day) and daily throughout the week so every single gram bought on your Auburn Walmart grocery run is prepared perfectly and accounted for:

1

- **Chicken** Divide into 14 equal raw portions of ~5.7 oz (~160g) each. Once seared, each raw 5.7 oz cube shrinks to ~4.0 oz cooked meat. You consume exactly two 4.0 oz cooked portions per day (Lunch & Dinner) = 8.0 oz cooked daily total (73g protein).
- **Broccoli** Portion out exactly 14 oz (~1.75 cups) daily across two servings: 8 oz (1 cup) at 5:30 PM and 6 oz (3/4 cup) at 10:30 PM.
- **Eggs** Pour exactly 4 fl oz (1/2 cup) daily into your morning scramble (using 28 oz weekly per carton, leaving extra buffer).
- **Protein** Use exactly 3 whole eggs daily for your post-workout scramble (using 18 eggs in 6 days, plus restock buffer for Sunday active recovery).
- **Rice** Cook 3.5 cups dry rice right after shopping, and cook another fresh 3.5 cups mid-week. You eat exactly 3 cooked cups (~474g cooked total) daily divided across Breakfast (1 cup), Lunch (1 cup), and Dinner (1 cup).
- **Beans** Portion exactly 2 cups (~170g) daily across your Lunch and Dinner containers (1 cup each).

2

Open your ~5.0 lb family tray of chicken breasts. On a clean cutting board, slice all chicken into bite-sized 1-inch cubes. Place all cubes in a large mixing bowl and toss lightly with 2 tbsp cornstarch, 1 tbsp garlic powder, and 1 tsp black pepper. Coat your large non-stick wok or skillet with Great Value 0-Calorie Canola Oil Cooking Spray over medium-high heat. Add chicken cubes in two batches to avoid crowding. Sear for 6-8 minutes until golden brown on all sides and internal temperature reaches 165°F.

In a measuring cup, whisk together 10 tbsp Kikkoman Teriyaki Marinade, 2 tbsp soy sauce, 7 zero-calorie sweetener packets, 1 tsp ground ginger, 1 tsp garlic powder, and 1/4 cup warm water. Pour the glaze directly over the cooked chicken in the wok over medium heat. Toss vigorously for 1-2 minutes until the sauce thickens into a glossy, caramelized coating that clings to every cube!

3

Rinse 3.5 cups of dry white rice in a fine mesh strainer until water runs clear (removes excess surface starch for fluffy grains). Combine with 7 cups of water in your rice cooker or large stovetop pot. Bring to a boil, cover tightly, reduce heat to low, and simmer for 18 minutes. Fluff gently with a fork.

Lay out 14 glass meal prep containers (7 for Lunch, 7 for Dinner). Spoon exactly 1 cup of cooked white rice into each container. Next right next to the rice, spoon exactly one 4.0 oz cooked portion of your glazed Teriyaki Chicken. Finally, place 1 cup of frozen broccoli florets into each container directly beside the chicken.

4

- Seal all 14 glass containers tightly with leak-proof snap lids. Place Containers 1 through 8 (Tuesday through Friday meals) in the coldest part of your refrigerator (34°F–38°F) where they stay fresh for up to 4 days. Place Containers 9 through 14 (Saturday through Monday meals) directly into your freezer (-0°F). On Friday evening, transfer the frozen containers to the fridge to thaw safely overnight.
- When ready to eat Lunch or Dinner, pop open the container lid and cover the food loosely with a damp paper towel. Microwave on High for exactly 2 minutes (2 minutes 30 seconds if slightly icy). The damp paper towel creates steam inside the glass container, perfectly steaming the broccoli florets while restoring the chicken teriyaki and rice to fresh, juicy, just-cooked perfection!

5

- Every morning at 8:00 AM right before beginning your Quiet Apartment Bodyweight Dojo workout and 45m Cardio protocol, brew 2 tbsp of Death Wish Espresso Roast with 8 oz hot water and pour over ice alongside eating 1 fresh banana. Upon returning inside at 10:30 AM, spray a clean non-stick skillet with 0-cal canola oil spray over medium heat. Pour in 4 oz liquid egg whites and crack 3 whole Grade A eggs. Gently scramble with a silicone spatula for 2-3 minutes. Right before taking off the heat, fold in 2 tbsp chopped fresh Japanese Negi (green onions) and 1 tbsp soy sauce until fluffy. Serve right alongside your 1 cup of reheated white rice and 1 tsp Sriracha Chili Garlic!
- Once per week (recommended on Sunday or Wednesday active recovery days), open your 14.75 oz can of Wild Pink Salmon. Mix with 1 tsp soy sauce and scallions or serve over 1 cup of rice. This delivers potent EPA/DHA Omega-3 fatty acids essential for joint lubrication, reduced systemic inflammation from lifting, and skin elasticity support ('160 lbs clean goal without loose skin').
