MASTER STEP-BY-STEP MEAL PREP & BATCH COOKING TUTORIAL

Monday Batch Prep Directive (How to Prep, Cook, Portion & Store)

Total Time: ~45 Minutes

Follow this systematic Monday workflow right after your grocery run so that from Tuesday through the following Monday, all your meals take under 90 seconds to serve!

- Step 1: Rice & Vegetable Batch Steam:** Rinse 3.5 cups of dry Long Grain White Rice in cold water until clear. Cook in rice cooker or large pot with 7 cups water and a pinch of salt until fluffy (~20 minutes). Simultaneously, steam both 4 lb bags of frozen broccoli florets until crisp-tender (~6 minutes). Drain well so broccoli isn't watery.
- Step 2: Chicken Searing & Gochujang Glazing:** Trim any excess fat from your ~5.0 lb family pack of chicken breasts and cut into uniform 1-inch bite-sized cubes. Toss in a large bowl with 1 tbsp garlic powder and 1 tsp salt. Heat a large non-stick wok or skillet over medium-high heat and spray generously with 0-cal canola spray. Sear chicken cubes in two batches for 6-8 minutes until golden brown and cooked through (165°F internal). Whisk together your Korean Glaze (8 tbsp Bibigo Korean BBQ Marinade, 4 tbsp soy sauce, 2 tbsp sriracha, 4 zero-cal sweetener packets, 1 tsp ginger, and 1/4 cup water). Pour over the cooked chicken in the wok and toss over medium heat for 2 minutes until sticky, glossy, and caramelized!
- Step 3: Portioning Into Containers:** Set out 14 glass or BPA-free meal prep containers (7 for Lunch, 7 for Dinner). In each container, place exactly 1 cup of cooked white rice, 1.5 cups of steamed broccoli, and ~5.7 oz of Wok-Seared Gochujang Chicken. Seal with airtight lids.
- Step 4: Fridge & Freezer Storage Rules:** Store Containers 1 through 6 (first 3 days of lunches and dinners) directly in your refrigerator. Place Containers 7 through 14 in the freezer to keep the chicken completely fresh and juicy. On Thursday evening, move the remaining containers from the freezer to the fridge to thaw overnight for the rest of your week!

K-POP IDOL HOME BODYWEIGHT DOJO WORKOUT PLAN (NO EQUIPMENT • SILENT • APARTMENT-FRIENDLY)

Zero impact, zero floor noise, apartment-friendly bodyweight routines designed by K-Pop celebrity trainers for lean muscle definition, tight waist carving, and high calorie burn without disturbing neighbors. Pair every session with 20-30 minutes of silent indoor marching or brisk outdoor walking.

Sunday: System Restoration / K-Pop Idol Yoga & Deep Stretch (Rest Day)

250 XP • Active Recovery

Focus on gentle yoga flows, deep stretching, and mindful breathing to prepare your body for Monday's grocery run, Korean meal prep, and Upper Body training.

1. K-Pop Idol Yoga Flow: Cat-Cow to Downward Dog Sequence

10-15 mins (slow flow)

Coach Tip: Start on all fours. Alternate between Cat (round spine up) and Cow (arch spine down) for 10 breaths, then push into Downward Dog and hold 30 seconds.

2. Full Body Deep Stretch: Hip Flexors, Hamstrings & Shoulder Openers

15 mins (hold 30-60 sec each)

Coach Tip: Hold each stretch for 30-60 seconds: pigeon pose for hips, seated forward fold for hamstrings, doorway chest stretch for shoulders. Deep breathing throughout.

3. Silent Indoor Marching or Outdoor Walk [Cardio]

20-30 mins steady pace

Coach Tip: March in place silently with high knees (soft foot placement) or take a brisk outdoor walk. Low-impact steady-state cardio burns fat without muscle loss or noise.

Monday: K-Pop Upper Body Sculpt + Monday Grocery & Korean Meal Prep

500 XP • Upper Body & Prep

Official Monday Grocery Run at Auburn ME Walmart, batch prep your Korean meals, and sculpt chest, shoulders, and triceps with silent bodyweight exercises.

1. Standard Push-Ups [Chest & Tricep Compound]

Coach Tip: Place hands wider than shoulder-width. Shifts tension to outer chest and anterior deltoids for that broad K-Pop idol shoulder frame.

3. Pike Push-Ups [Shoulder Press Alternative]

4 sets × 8-10 reps

Coach Tip: Start in downward dog position with hips high. Bend elbows to lower head toward floor, then press up. Mimics an overhead press using only bodyweight.

4. Chair/Couch Tricep Dips [Tricep Horseshoe Sculpt]

2. Reverse Lunges (Alternating) [Quad & Glute Isolation]

3. Close-Grip Push-Ups [Tricep & Inner Chest Focus]**3 sets × 10-12 reps**

Coach Tip: Place hands closer than shoulder-width, elbows tucked close to ribs. Shifts focus to triceps and inner chest for defined, toned arms.

4. Prone Y-T-W Raises [Upper Back & Rear Delt Posture]**3 sets × 8 reps each letter**
